A GRAVE MISTAKE.

Gen. Grant has committed another error, and one for which there is no shadow of justification. If it be true as the telegraph states that President Grant has relieved General Custer because of his testimony against that miserable scoundrel Belknap, he has committed an offense which the people will not easily forget or forgive. It is stated that when the news got to General Sherman and Secretary of War Taft, both went to Grant and insisted that it would not do. Sherman went further and said: "Custer has been my best commander, not only the best man, but the only man to lead the expedition now fitting against the Indians." To all their entreaties Grant turned a deaf ear, saying: "Custer came as a witness in the Belknap business to besmirch his administration, and he proposed to stop it." It may be that Grant and Belknap are on the same intimate terms as formerly, and the former desires to shield the latter as much as possible. If he does it will only besmirch the Administration so much the more, and Grant will discover the fact too late. "This is a Republic where the will of the people is the law of the land," and if the Administration is corrupt it must be cleaned out. The moral sense of the people has been awakened, and quickened, by the recently discovered dishonesty of Government officials, and leading politicians. We feel that a great wrong has been done, that our confidence has been abused, that our industry has been robbed, and not knowing that the lower depths of infamy have been reached, we are suspicious that other men in high power may be equally guilty; that the strong box of the Treasury is accessible to more plunderers; that some other Cabinet official has trafficked in bureau favors; that every man holding a Government office considers it a perquisite, and that all who repay gifts by official patronage are not as honest as they should be. Therefore that man who puts a stumbling block in the path that will lead to the catalogue showing up these misdemeanors is an enemy to his country, and a dangerous man to be invested with the badge of a high office.

THE Bristows were originally from England and settled in Virginia. Benjamin Bristow, the grand-uncle of the Secretary, was killed at the Brandywine. Archibald, the grandfather of B. H., emigrated to Kentucky and settled in Clark county in the Boone days. His son Marion was born there, was the friend of Henry Clay, a Whig of course, and served two terms in Congress. He was very decided anti-slavery and told his slaves they could go. Archibald, his father, emancipated his slaves and settled them in Ohio. During the war, and while B. H. was in the Union army, Confederate sympathizers burned his house at Hopkinsville.

The New York *Herald* says that, in his speech on the Chinese question, Senator Sargent showed the real grounds of objection to unrestrained Chinese emigration and the necessity of an amendment of the Burlingame Treaty. There is no doubt that the influx into this country is morally pernicious as well as prejudicial to the business interests of our people, and the question which must be settled is humanity and civilization.

A safe deposit vault just completed in London is deemed invulnerable. It is sunk forty-six feet into the ground, with walls of brick and concrete six feet thick. Inside this structure is the safe, three feet thick, made of fire brick and undrillable iron. The metal doors weigh four tons each and are swung by hydraulic power.

TELEGRAPHIC NEWS.

EASTERN DISPATCHES.

Good News.

New York, May 4.

Another railroad war, likely to last longer and be more disastrous than any of its predecessors, has just broken out, the contestants being the Erie, Pennsylvania, Baltimore and Ohio and Grand Trunk on one side, and on the other the New York Central. It is predicted that within a few days there will be a break of from thirty to fifty per cent on passenger rates and freight will be carried at nominal figures.

A cable special from London says that the divers have recovered another sum of \$5,000 in gold from the wreck of the German steamer Schiller, making an aggregate of \$292,000 saved out of \$300,000 on the vessel.

St. Louis Whisky Cases.

St. Louis, May 4.

Col. Broadhead, special counsel for the Government, gave notice today that he would to-morrow move to consolidate all pending indictments against the defendants in the whisky cases with those with which they had plead guilty, so that one judgment would dispose of all the cases and clear the record. It may be expected that sentencing will commence to-morrow.

WESTERN DISPATCHES.

Consolidation—Wrath of the Whisky Men—Not Guilty—Fryer Process—Assessment Levied.

San Francisco, May 4.

The old Colwell and Parker claims have been consolidated under the title of the Original Comstock Gold and Silver Mining Company, who own twelve feet on consolidated claims. The capital stock of the corporation is \$10,000,000, in shares of \$100 each. The directors and officers are: President, Hon. R. Pacheco; Vice President, J. H. Gilmore; Directors, Hon. R. Pacheco, M. L. McDonald.

The whisky men are unsparing in their denunciations of Special Agents Crane and Clark for making the recent seizures. They deny that any fraud has been committed, and assert that the whole thing has been devised to make political capital.

Eileen Loudain, who has been on trial on a charge of manslaughter, for killing Diedrich Lankman, has been found not guilty by the jury.

A private dispatch from Grass Valley reports that the Fryer reduction works began operations this morning and were working successfully.

An assessment of ten cents per share has been levied by the South Comstock Gold and Silver Mining Company, delinquent June 6th.

The Anti-Chinese Investigation.

Sacramento, May 4.

The Senate Committee to investigate the Chinese question is now sitting in Sacramento. Yesterday C. P. O'Neil, policeman, testified to having been a witness of the sale of a Chinawoman for \$450. The woman soon after suicided, not liking the man to whom she was sold. He also stated that he had been informed by Chinese that they attended the Mission schools solely to learn English, and laughed at the idea of becoming Christians.

Ah Dan, Chinese interpreter, testified that two Chinese interpreters had been killed in Sacramento for their services in court in procuring convictions and that a reward was outstanding for his life. Had seen similar notices posted in San Francisco. Such notices contain an agreement to employ counsel to defend the murderer if arrested, and recompense him if imprisoned, and to send money to his friends in China if executed. His testimony concerning Chinese companies was similar to that heretofore published.

Accident.

Keilton, Utah, May 4.

The east-bound emigrant train which left here this morning at 7 o'clock struck an ox in a cut 40 miles east of this place, ditching two engines and six freight cars, and instantly killing an engineer and fireman. Their names are not yet known.

Pledged to Blaine.

Portland, Oregon, May 4.

The Republican Convention met yesterday and elected J. C. Tolman, W. B. Van Houton, J. K. Foster, J. B. David, H. K. Hinze and H. W. Scott delegates to the National Con-

vention. Under resolution they are pledged to Blaine. The office-holders attempted to defeat the resolution, but failed. The usual resolution endorsing Grant's administration failed to pass.

What They are Saying for Bristow.

Among the most prominent advocates of the claims of Conkling for the Cincinnati nomination has been the New York *Sun*. It is showing of late a change in favor of Bristow. Editorially it said on the 21st of last month: "A distinguished politician of Ohio, who has been for some time in Washington, writes us that his impression now is that the Republicans will be forced to nominate Bristow, and the Democrats Judge Davis." This the *Sun* regards as "a very encouraging prophecy all around," for "if the two parties can be brought to put up men of such character and ability, we may be sure of a good President." In the West and in New England Mr. Bristow always had strong supporters in such influential papers as the Cincinnati *Commercial* and the Springfield (Mass.) *Republican*. The *Commercial*, in a review of the Presidential situation (April 21st), figures up the chances considerably in favor of the Secretary. New England, outside of Maine, is strongly for him. In Massachusetts, New Hampshire, Connecticut and Vermont his friends could carry solid delegations for him, and only do not move in that direction because they "do not wish directly to antagonize Blaine." Coming to Ohio, the same paper declares that half of her delegation is for Bristow rather than Hayes in advance, and that after a complimentary vote for Hayes they will all concentrate on Bristow "with alacrity." Michigan, Wisconsin and Minnesota, it thinks, are coming over from Blaine to Bristow; and if Illinois does not stick out for Washburne and succeed in concentrating the eye of the Convention upon him as the "dark horse," her delegation will in the end support Bristow. "Our judgment is," says the *Commercial*, "that the drift of public opinion and the development of Bristow's strength will influence the votes to nominate him; but there are two diversion possible. One is to Hayes, the other to Washburne." But Washburne has positively refused the gubernatorial nomination in Illinois, which was his natural introduction to the Cincinnati Convention, and to the voters of the country. And as for Hayes, he has no supporters outside of his own State. The fact is that the public mind has turned everywhere towards the Secretary of the Treasury as the man for the emergency; and, while all other aspirants are losing ground, he is constantly gaining in popular confidence.—S. F. Post.

PIOCHE MINING NEWS.—The Pioche Record gives the annexed as the latest mining news from that district:

Owing to the irregular departure of stages only \$21,499 in bullion was shipped from Pioche during the past week. About \$25,000 is now at the express office awaiting a chance for shipment. Very little alteration has taken place in the general appearance of the mines. The Raymond & Ely pump still continues giving satisfaction, working at the same stroke it has been doing for a few weeks past. The work on the Meadow Valley mine continues the same without any change. In the Alps mine they have commenced sinking on the white quartz vein containing gold, with very flattering prospects. The mill of the company runs regularly night and day most of the past week, producing bullion at a fair rate. The Pioche and American Flag are pushing ahead their work. The Flag mill is turning out a fair supply of bullion. The Newark mill continues running on custom ore. Ore trains are now running more regular, conveying about seventy tons of ore daily to Bullionville. Pioche stocks have shown very little depreciation during the recent demoralization of the Stock Board, which indicates that the faith in the future of our mines still continues.

The Virginia papers went after Dr. Van Zandt, the Hospital physician, for certain queer proceedings, and as a result he tendered his resignation to the Board of Commissioners yesterday, which was unanimously accepted. A successor will be appointed Saturday.

A LITTLE boy, named John Royal, had his left leg cut off by a V. & T. train running over him in Virginia Wednesday afternoon.

THE Teacher's Convention, which was to have met in Virginia this week has been indefinitely postponed. No reason is assigned.

The Kossuth will be cleared of water by Sunday next.

A lawyer may be said to work like a horse when he draws a conveyance.

The man who continually sits bolt upright in society is not a thing to admire.

LATEST NEWS ITEMS.

A Democratic Greenback Convention met at New York on Wednesday. It repudiates Tilden and calls on Congress to repeal the specie resumption act.

The New York Legislature adjourned Wednesday.

Gov. Ingersoll of Connecticut was inaugurated Wednesday.

A man named Gehring killed his wife and then himself in Chicago on Wednesday.

The grand jury of the District of Columbia have agreed to indict ex-Senator Belknap.

There is a prospect that the Crow Indians will soon go on the warpath after the Sioux.

The news from the Black Hills is very discouraging. The journey thither is very dangerous and no good mines are reported.

A good deal of trouble is still caused by the people hoarding the new silver coins.

The Winslow case will soon be discussed in Parliament.

The Newmarket 2000-guinea cup was won yesterday by Petrarch, with Julius Cesar second and Kaleidoscope third.

The managers of a Paris newspaper have been sentenced to fine and imprisonment for publishing a political speech.

England is growling that the proclamation giving effect to the Royal Title bill does not limit the title of Empress to India.

There is a prospect that a deduction of twenty-five per cent will be made in San Francisco water rates.

NEW TO-DAY.
